Please select Alternative G with additional dredging as proposed by the Portland Audobon Society.

This is our chance to do it right. The Willamette River has been ruthlessly used/abused by a long list of polluters including ExxonMobile, Northwest Natural and the Port of Portland. These polluters profited in the process of turning our river into a Superfund Cleanup Site and should now step up and pay for a complete clean-up. A partial clean-up is not adequate and does not serve the citizens adequately.

We want our river back. It is vital to the health of our communities, our environment and our wildlife. This can only be accomplished by selecting Alternative G with additional dredging as proposed by the Portland Audobon Society.

Thank you.
